

致尊敬的录取委员会：

罗敏中在新浪微博实习期间给我留下了深刻的印象。他的数学基础很扎实，对统计机器学习有比较深入的理解，编程能力强。尤其是做事情特别主动，执行力强，能够对布置的任务认真负责的完成。特别值得称道的是他在基于有监督机器学习和强化学习进行数学自动推理上的研究富有新意。

基于我对罗敏中以上的认知，我认为他有很好的研究能力和潜力，强烈推荐他继续攻读博士。

To admissions committee:

Minzhong Luo makes a deep impression on me during the Sina Weibo internship. He is solid on mathematical techniques in graduate level, and has a deep understanding of statistical machine learning. He also has strong programming skills and experience. In particular, he is a self-driven person with good capability of execution which made him finish tasks carefully and responsibly. His research project on automatic reasoning of mathematical statements based on supervised machine learning and reinforcement learning is innovative, which greatly displays his talent on research.

Based on cognition and facts above, I think he has good research ability and potential, and I would like to strongly recommend him to pursue a Phd program.

Huanfang Dong

Algorithm Architect, Sina Weibo
